Social and economic green transition around Lago Petén Itza, including: wood processing, sustainable forest management, climate resilient agriculture, solid waste management and water and sanitation systems.

DIGITAL

- Last km connectivity
- Investment in connectivity infrastructure to foster digital transformation

Petén Department

Guatemala City

HEALTH

- Comprehensive Intervention Strategy for the Motagua River Basin to fight contamination
- Drinking water supply to Guatemala City

PRIORITY 2023

Regional - Central America - Climate & Energy

Five Great Forests of Mesoamerica initiative seeks to form multi-stakeholder partnerships to protect 10 million hectares of forests, restore 500,000 hectares of forest, prevent species extinction and eradicate illegal cattle farming by 2030, ensuring that forests are used sustainably.

Regional - Central America - Climate & Energy

Corredor Seco: Ecosystem-based adaptation and innovative financial mechanisms to increase resilience to extreme climate events.

Regional - Central America - Climate & Energy

Reinforcing the regional electricity market and its dedicated transmission line as well as critical national transmission infrastructure.

These outputs do not capture the whole of the Team Europe engagement in country. They capture concrete infrastructure investments under Global Gateway. They will be accompanied by soft measures in a 360° approach, so as to improve the policy, regulatory and business environment, develop skills, foster innovation and transfer technology.

The boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance by the European Union.
