

TEAM EUROPE GLOBAL GATEWAY INITIATIVE: PROMOTING THE ECOLOGICAL TRANSITION OF PETÉN

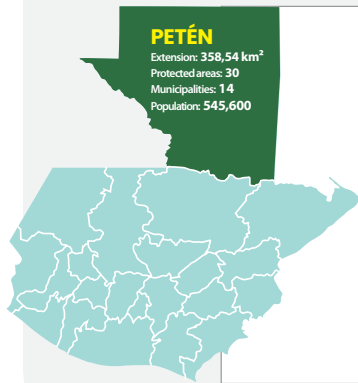

Link the socioeconomic development of the region with the protection and sustainable use of natural resources.

Specific Objectives

1. Improve the policy framework and financing for green and inclusive economic development in Petén.

2. Increase sustainable production and productivity in forestry, agriculture, livestock and tourism.

3. Improve solid waste and wastewater management services in the municipalities of the Petén-Itzá basin.

Team Europe

- European Union: 40.000.000 EUR
- Germany: 1.477.600 EUR
- Spain: 1.850.000 EUR
- France: 2.500.000 EUR
- Ireland: 250.000 EUR
- Sweden: 30.000.000 SEK
- FAO: 1.000.000 EUR

- 1. Capacity building for ecological transition.
- 2. Sustainable management of forest and biodiversity systems.
- 3. Climate-resilient agriculture and sustainable livestock farming.
- 4. Sustainable tourism.
- 5. Management of solid waste and sewage systems.

Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH

Promoting sustainable management of forest and biodiversity systems.

12.477.600 EUR

Organización de las Naciones Unidas para la Alimentación y la Agricultura

Promoting sustainable production and productivity in forestry, agriculture and livestock.

11.250.000 EUR

Fondo de Cooperación con Agua y Desarrollo

Preservation and sustainable development of the Petén Itzá Lake basin and its area of influence.

17.850.000 EUR

Suecia Sverige

Sustainable Mayan Landscapes: Conservation and connectivity of biodiverse landscapes through sustainable and inclusive production systems in the Maya Biosphere Reserve.

30,000,000 SEK (±2,6 million EUR)

FONDS FRANÇAIS POUR L'ENVIRONNEMENT MONDIAL CIRAD

ConForMa: Towards a concerted forest management. Mayan Forest Model and forest communities of Petén, Guatemala.

2.500.000 EUR

**MULTIANNUAL INDICATIVE PROGRAM, 2021-2027
PRIORITY AREA, GREEN TRANSITION.**

EUROPEAN GREEN DEAL

EU growth strategy consisting of a package of policy initiatives that place the EU on the path towards a green transition, with the ultimate goal of achieving climate neutrality by 2050.

GLOBAL GATEWAY

Smart investments in quality infrastructure, in compliance with the highest social and environmental standards, and in accordance with the values and standards of the European Union, to meet the global needs for sustainable and fair development.

GUATEMALA

Among the 10 countries most vulnerable to climate change.

High risk of extreme natural phenomena and recurring natural disasters.

Limited capacity for prevention and response to disasters.

One third of the population depends on natural resources for survival.

Natural resources degraded by overexploitation, deforestation, unsustainable practices.

PETÉN

Guatemala largest department.

Change in forest land use due to agricultural and livestock expansion.

Migration to the department from other countries and regions.

Potential for improving management and sustainable use of natural resources.

MAYAN BIOSPHERE RESERVE

Main forest area in Central America.

Largest protected area in Guatemala.

2.1 million hectares of unique ecosystems and biodiversity.

1.5 million hectares of forests lost in the last 30 years.

Petén más Sostenible

can have greater impact with **PUBLIC AND PRIVATE INVESTMENTS.**

High potential to:

- contribute to climate and biodiversity objectives.
- attract green financing for economically, socially and environmentally sustainable investments.
- develop value chains in the forestry, agriculture, tourism and circular economy sectors.
- complement investment support programmes in priority areas within the framework of the European Global Gateway strategy.
- promote access to loans and guarantees from European development banks and financial institutions within the framework of the EFSD+ programme.
