

SIDE-EVENT

Meeting the health needs of women and children in North-East Syria

WEDNESDAY MAY 4TH, 10 TO 11.30 AM (CET)

ZOOM WEBINAR—REGISTRATION https://zoom.us/webinar/register/WN_BmoXE8AzTUaI5BMUwNI1aA

As the world marks 11 years of conflict in Syria, this decade has also been one of the destruction of the healthcare system in the country. Women and children, among the most vulnerable populations, are strongly impacted. Meeting their health needs, including physical mental and social health needs, pose challenges.

What is the situation analysis of existing health services for women and children? What are the challenges encountered in their delivery ? What are opportunities to strengthen and support the health system ?

Speakers

- **Dr Nynke Van Den Broek**, Reproductive, Maternal, Newborn and Child Health expert – Expertise France
- **Leila Zhgoul**, Gender-based violence Working Group Coordinator – Relief international
- **Midwives and pediatrician** operating in the NES
- **Dr Naseer Nizamani**, Health Working Group Coordinator - NES Forum
