

COVID VACCINATION – EU SUPPORT TO TAJIKISTAN

Strengthening the Health System

The EU has been one of the main donors supporting the health sector in Tajikistan over the **past 10 years**

The **Human Development Support Programmes** invested **€56.5 million** in strengthening the Tajikistan’s health and social protection systems **since 2011**

The new **Health Development Programme** for **2021-2025** has recently been countersigned by the Government of Tajikistan

€ 52.2 million

will be invested in strengthening of Tajik health care system through **3 projects:**

1

Strengthening health governance and financing, with WHO

€3.2 million

2

Improving access to quality primary health care services, with GIZ

€18.5 million

3

Infection prevention and control across the health system, with UNICEF

€30 million

COVID-19 VACCINATION

192 000 doses of AstraZeneca vaccine delivered on **08 March 2021**

624 000 doses by May 2021

3% of the Tajik population will be covered by vaccines donated via **COVAX**

Priority groups: health care workers, teachers and people older than 50 years old

COVAX

€ 5.3 billion to guarantee fair and equitable access

Over **€ 2.2 billion** from TEAM EUROPE brings us closer to COVAX’s objective to deliver

1.3 billion doses to lower income countries by the **end of 2021**

Partnership: co-led by the Coalition for Epidemic Preparedness Innovations (CEPI), Gavi - the Vaccine Alliance, the World Health Organisation, UNICEF - key delivery partner

EU Emergency Response to COVID-19 in Tajikistan

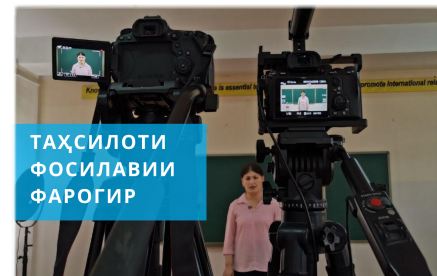

SPRING 2020

The EU has supported the emergency response in Tajikistan through the financing of **€ 4.6 million** of personal protective equipment (masks, gloves, sanitisers, protective suits)

95 ventilators for critically ill patients procured through a partnership with UNICEF and the Ministry of Health and Social Protection

Awareness raising campaigns, distance learning modules for online schooling

Support to farmers to fight food insecurity

No one will be safe until everyone is safe!
